PUBLIC NOTICE
NOTICE OF MODIFICATION
TO NON-RECURRING CHARGES

On or about December 5, 2025, EASTERN HEIGHTS UTILITIES, INC. (EHU) will file a request with the INDIANA UTILITY REGULATORY COMMISSION (IURC) to increase the current Tap Fee and to establish a System Development Charge. The current Tap Fee for a single 5/8-inch meter installation is \$1,685.00 and EHU is proposing to increase the Tap Fee for a single 5/8-inch meter installation to \$1,960.00. EHU is also proposing to increase the additional Tap Fee for a Dual 5/8-inch meter installation from \$385.00 to \$517.00, in addition to the first 5/8-inch meter Tap Fee of \$1,960.00. The reason for this increase is due to the increase in material cost and equipment and labor cost associated with the installation of a new water tap. EHU is also proposing to establish a new System Development Charge that will be assessed to new water system customers for system capacity. The System Development Charge for a 5/8-inch meter is proposed at \$2,565.00, with larger meter connections reflected at equivalent meter charge rates. The proposed increases are for non-recurring charges only and do not affect retail water rates. Eastern Heights Utilities anticipates that the IURC will approve the above thirty-day filing no sooner than thirty days after the date of the filing.

To the extent any interested party seeks to file an objection, they may do so by contacting the Secretary, Indiana Utility Regulatory Commission, 101 West Washington Street, Suite 1500 East, Indianapolis, IN 46204 or the Indiana Office of Utility Consumer Counselor, 115 West Washington Street, Suite 1500 South, Indianapolis, Indiana 46204.
